***Election/Restrictions***

This application contains claims directed to the following patentably distinct Species:

Species 1: Figures 1A-1C

Species 2: Figures 2-5

Species 3: Figures 6A-8

Species 4: Figure 9

Species 5: Figures 10A-13 and 15

Species 6: Figure 14

Species 7: Figure 16

Species 8: Figure 17

Species 9: Figures 18A-19B

Species 10: Figures 20-26 and 39

Species 11: Figure 27, 40, 43 and 45

Species 12: Figures 28-29

Species 13: Figures 30-31C and 36A-38B

Species 14: Figures 32A-32C

Species 15: Figures 42, 44, 47A-47B

Species 16: Figures 41A-41B and 46A-46C

The species are independent or distinct because each species contains its own structural limitations that make them distinct from each other as indicated above.

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

3. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims. Applicant is advised that a reply to this requirement must include an identification readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless

accompanied by an election.

4. Upon the allowance of a generic claim, applicant will be entitled to consideration of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP j 809.02(a).

5. Applicant is advised that the reply to this requirement to be complete must requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

6. The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not traverse, the election of an invention or species may be made with or without traverse. To distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

7. Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
